

Customer Testimonials

“ We have found the DATOM framework to be extremely useful, comprehensive, insights generating and unbiased. The most important aspect is that it could help us ascertain our objective and provide actionable feedback without any ambiguity, which I feel is the most value adding part of any assessment or benchmarking. ”

Jayanta Banerjee
Group CIO, Tata Steel

“ We clearly found the exercise very useful. The observations have given us an outside-in view of where we are and areas on which we need to work. ”

Rajiv Sabharwal
MD and CEO, Tata Capital

“ Data Maturity is a foundational need to drive analytical insights and digitisation. The TBExG assessment was a useful exercise to identify where we stand and the areas to address in our journey. ”

KR Venkatadri
Chief Innovation and Digital Officer, Tata Chemicals

“ The Assessment was a useful tool in understanding Titan’s current maturity levels. It will be helpful in putting together plans to scale up analytics to support Titan’s future growth and aspirations. ”

Krishnan Venkateswaran
Chief Digital and Information Officer, Titan Company

“ All team members had the experience to undertake the assessment and were very cordial and professional. Heartiest compliments for enriching us with data related aspects. ”

Tata Power-DDL

“ Useful tool in understanding Titan’s current maturity levels. Will be helpful in putting together the plans to scale up analytics to support Titan’s future growth and aspirations. ”
